To Whom It May Concern:

I wanted to share a letter of recommendation on behalf of an outstanding colleague, Arnie Silva. For the past eight months, I have had the privilege of being Arnie's Manager under the Reliability Analytics team. In a year fostering a magnitude of change, Arnie has paved the way for others by acting as a role model, helping reduce resistance throughout the team and unknowingly took on the role of a change champion within the organization. With his unique engineering skillset, his forward-thinking mindset and exquisite attention to detail, Arnie is a versatile employee who I am confident would be an asset to your company.

Arnie produces a high volume of work while consistently maintaining high standards for quality and accuracy for our regulatory reporting, all while looking for ways to streamline and automate processes. He has been recognized for his prompt responses, his data analytics skills, and his Agile mindset. I am very grateful for his contributions to the team and am very confident with his skillset, adaptability, and willingness to meet change with a positive attitude that Arnie will add value wherever he works and take the company to new heights. In case you have any questions, please feel free to email me.

Sincerely,

Katelyn Rioux
